

My family listens to K-LOVE on 106.7 in the Raleigh/Durham area of North Carolina. We enjoy and wish to continue to enjoy the music and helpful information we receive on this station. Many people that I know also listen to this station and would be very upset if this station were displaced by an LPFM broadcaster that is not of the high quality of K-LOVE. This station is very informative, family friendly and is a positive influence to the triangle area. There are so few of these types of stations available that it would truly be a hardship if this station were to be displaced. Please leave this station alone so people all over the U.S. can have a station that is clean, encouraging, family friendly and informative. This station is a rare gem in today's world.
